

# Podcasts, Posters, and the Library? Oh my!

A Story of our Librarian/Faculty Collaboration

Cori Biddle, MSLS  
Maria Paz G. Esguerra, Ph.D.

Bridgewater College

# Key Takeaways

- There are different ways to do “embedded librarianship.”
- It is important to try new projects in the classroom to encourage student engagement.

# Embedded Librarianship

Our Definition:

Collaborative partnership where faculty and librarian work together to fulfill the need and goal of student learning.

# Classroom Goals

- Introduce more creative ways of engaging students in the history classroom.
- Help students build a toolbox of skills.

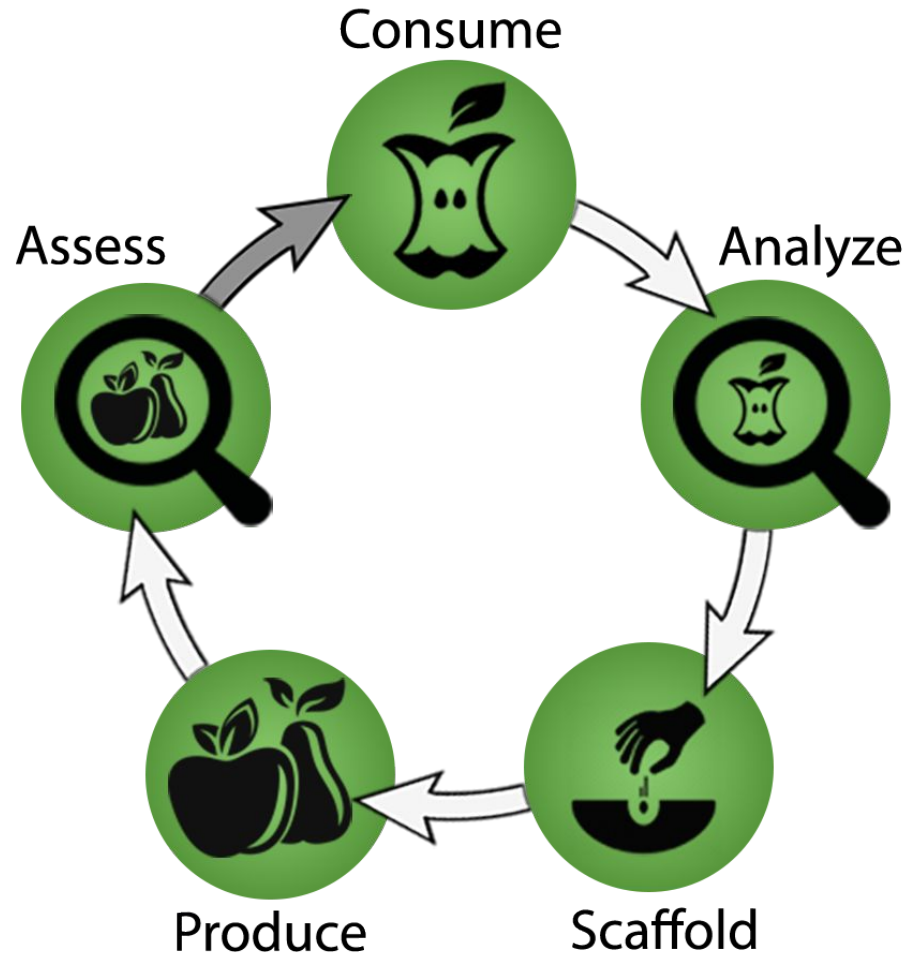

# Activity: Inventory

- Beyond research support, what other skills/expertise can you bring to the classroom?
- What buy-ins already exist as ways to connect with faculty?
- What partnerships are already there for fertile ground?

# Research Posters: American Indian History

# Model of Librarian Integration

Librarian maintains presence throughout by providing feedback during topic proposals and attending final presentations

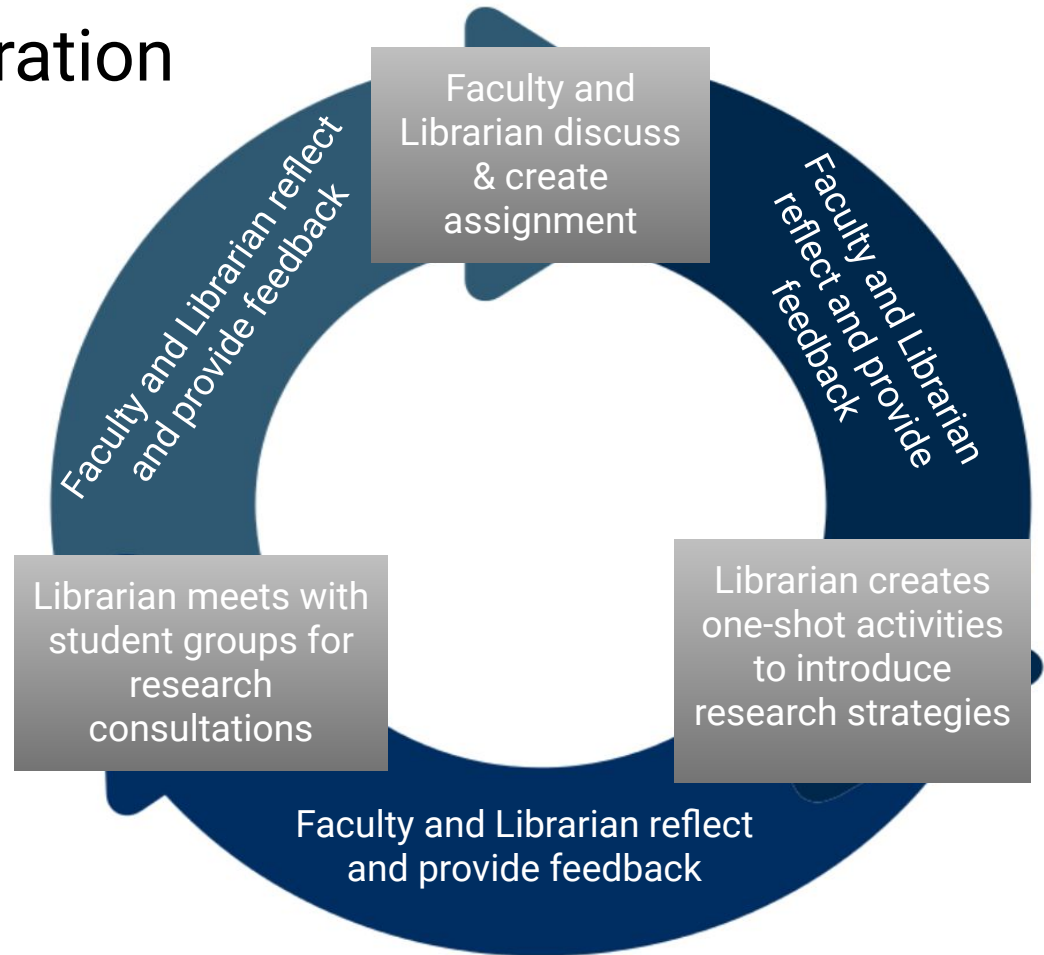

Diagram of our Model

# Challenges

- Time Consuming
- 1-2 classes/semester
- Semester schedule
- Pacing Project Assignments

# Opportunities

- Research + Skills
- Beyond the one-shot
- Brings community together

Faculty & Librarians:  
Podcast Listening Party

# Activity: Reflections 1/1/1

- What did you learn today?
- What can you implement on your campus?
- What is one question that you still have?

**3:59**
