CIP PUBLISHER LIAISON TEAM

CIP TECHNICAL TEAM

The LC CIP Program

VLA Professional Associates Conference, May 22, 2017
Marriott City Center, Newport News, VA

Library technicians have been critical to the Library of Congress Cataloging in Publication Program for over 40 years. The CIP Publisher Liaison Team processes applications for CIP data and serves as the POC for publishers, while the CIP Technical Team processes materials received in compliance with the CIP Program.

Presenters:

Schamell Padgett – Supervisory Library Technician

Cataloging in Publication (CIP)

- ▶ Serves as an outreach function to the nation's libraries
 - ▶ Provides cataloging data to libraries prior to publication
 - ▶ "CIP data block" is the abbreviated bibliographic record that appears printed on the verso of the book's title page
 - ▶ Helps reduce the costs of cataloging for libraries and can serve as an acquisitions tool to select forthcoming titles
 - ▶ CIP Program is limited to works most likely to be widely acquired by the nation's libraries

Preassigned Control Number (PCN)

- ▶ Established to provide alternative for publishers who are not eligible for the CIP Program
- ▶ Publisher receives an LCCN to print in book
- ▶ Facilitates cataloging for libraries & vendors
- ▶ Initial bibliographic record created by LC
- ▶ Fully cataloged by LC if selected for collection

Pre-publication Workflow for a CIP Title

- ▶ Publisher applies for CIP data via online application
- ▶ CIP Publisher Liaison Team reviews application, sends to appropriate cataloging section
- ▶ Section catalogs, may refer to another section for more work, then sends to Dewey Section
- ▶ Dewey Program classifiers assign Dewey Decimal Classification and return to Publisher Liaison
- ▶ Publisher Liaison emails completed CIP data block to publisher

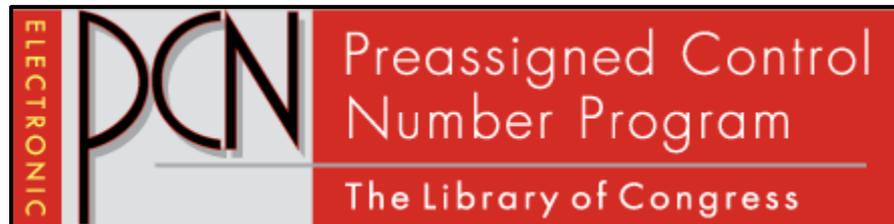

Post-publication Workflow for a CIP Title

- ▶ Publisher mails published book to the Library of Congress with CIP data block on title page verso
- ▶ CIPTT reviews published book for accuracy against the bibliographic record, checks it in, and adds holding and item record
- ▶ CIPTT sends book to appropriate section for CIP verification, and assists with this process
- ▶ CIP verification is completed and the book is sent to General Collection stacks as part of the collection

CIP PL Primary Processing Responsibilities

- ▶ The CIP PL Team processes all applications received via two free programs for U.S. publishers:
 - ▶ Electronic Preassigned Control Number Program (EPCN)

- ▶ Electronic Cataloging in Publication Data Program (ECIP)

CIPTT Primary Processing Responsibilities

- ▶ CIPTT processes all incoming materials received from publishers in compliance with the Cataloging-in-Publication (CIP) and Preassigned Control Number (PCN) program obligations.

Priority 1

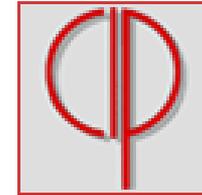

Priority 2

- ▶ CIPTT has two primary workflows, identified as Priority 1 and Priority 2.
-

Priority 1

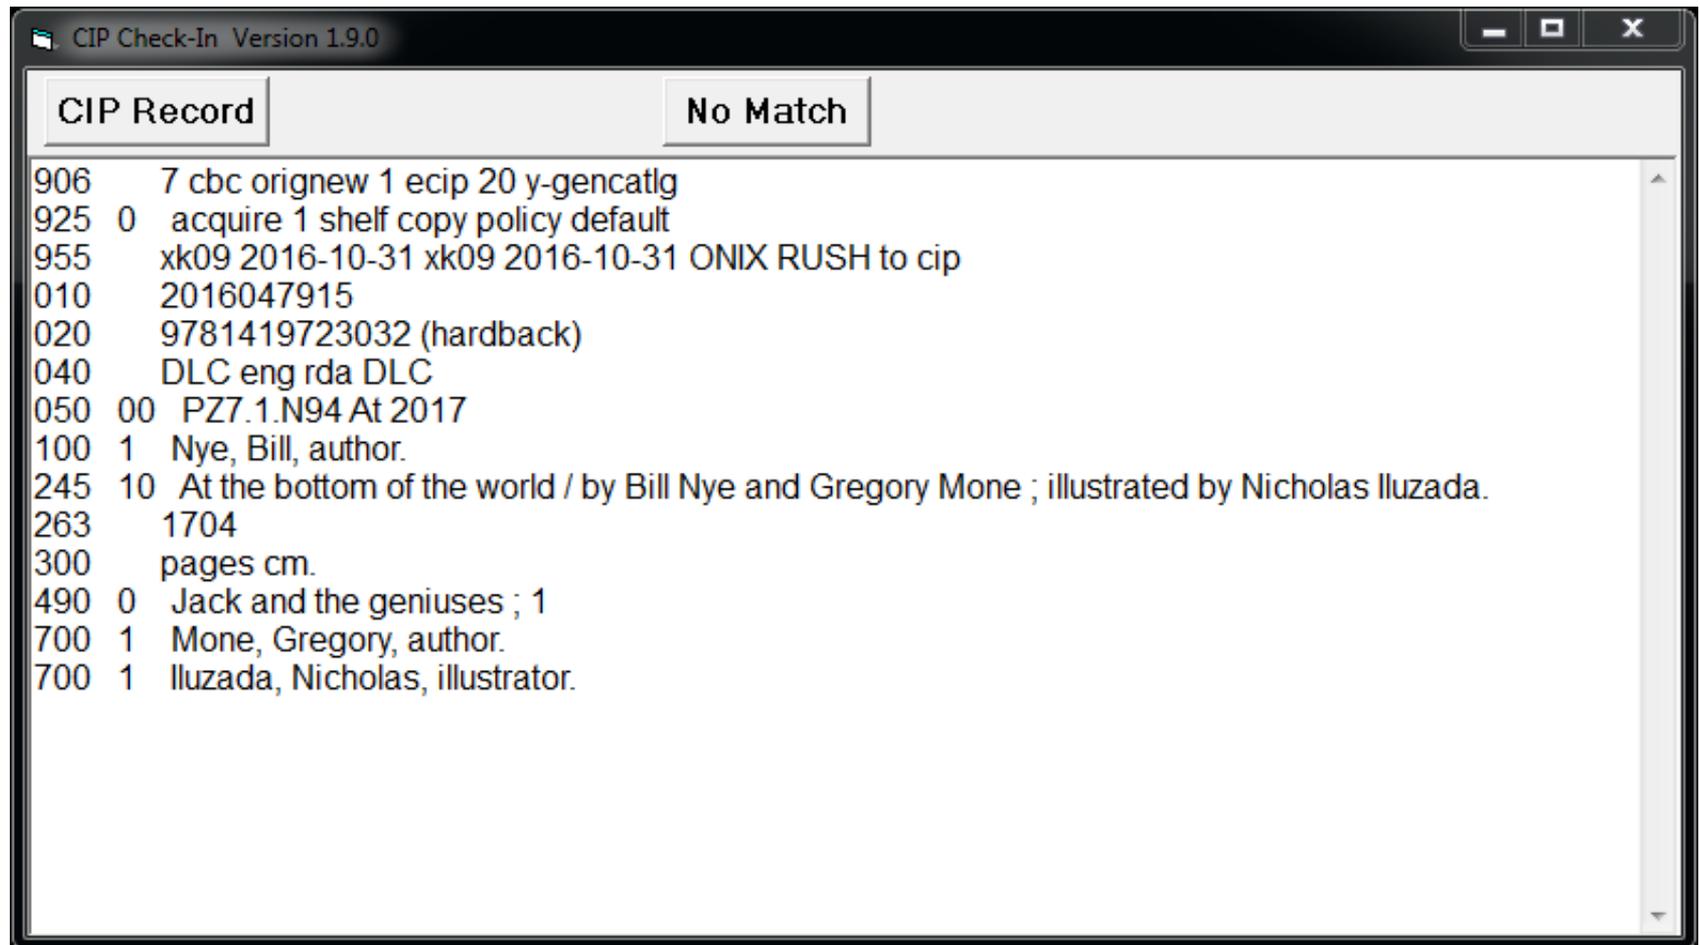

- ▶ Priority 1 are CIP materials

- ▶ Includes CIP print books and e-books
- ▶ Typically fully catalogued in advance of publication with participating publishers
- ▶ Ideally they contain a complete CIP data block on the verso of the title page
- ▶ Generally expected to be widely acquired throughout the U.S.
